Benefit Highlights 2026

Benefit Highlights

As we move into 2026, we will continue to focus on affordability, innovation, and better healthcare access for you. Here's a look at what's coming next!

Contributions

Contributions will go up by **7.0%**, which is still **below the market average**. Since 2020, our total increases have remained well below industry trends — proving our commitment to value and affordability.

New benefits

1 We're **expanding coverage** and introducing **new vaccines (pneumococcal for adults and RSV)** to ensure members have access to the best possible healthcare.

2 **PlatFreedom:** We're converting the **Overall Annual Limit** into a dedicated Hospital Annual Limit, unlocking an incredible **36%** increase in benefits. All other limits remain as standalone benefits, preserving everyday healthcare access.

3 **PlatComprehensive and PlatCap:** We've **increased benefit limits** by **4.5%** in line with inflation for 2026. Just another way we are maintaining the richness of our benefits.

Benefit Highlights

Why are pneumococcal and RSV vaccines important additions?

Pneumococcal Disease

Poses serious risks to adults, particularly those with chronic conditions or compromised immunity. By covering adult pneumococcal vaccines, we're preventing potentially severe complications, hospitalisations, and long-term health impacts.

RSV Vaccines

For pregnant women protect newborns during their most vulnerable period, reducing lower respiratory tract disease in infants.

We are upgrading our facilities and opening new pharmacies

We're opening **new pharmacies** and **upgrading clinical services** across our network. This means that our members will have better access to quality care closer to home.
